**MOST DISTINGUISHED**  
**DOCTORS**

---

Is there such a thing as a “best doctor”? Not really. Unlike runners competing in a 50-yard dash, where speed is the only metric that counts, doctors’ performances aren’t so easily quantified. Excellence in the medical profession is a complex mix of medical and surgical skill, education, training, and experience. These are the criteria we use to determine who is named to WAG’s annual list of M.D.D.’s—Most Distinguished Doctors.

These are the men and women we trust with our health and that of our family.

*Congratulations to The WAG’s Most Distinguished Doctors, our 2009 M.D.D.’s*
